DESCRIPTION

The Valex M-LA 18 car polisher is powered by an 18V lithium battery and operates at a speed of 3850 rpm. The pad has a diameter of 150 mm. Supplied with wool and cloth bonnet; the bonnet attachment is elastic. The soft handle ensures a secure and comfortable grip. Battery and charger not included.

This product is part of the 18V Valex OneAll battery line, the multifunctional, efficient, safe, practical, and eco-friendly series of power tools and garden machines designed to work by sharing the same power source.
