DESCRIPTION

Valex Apache 52 chainsaw with a 52 cc 2-stroke catalytic engine with easy start. Equipped with a 52 cm bar and OREGON chain, this chainsaw features an electronic ignition device and a throttle with a safety device. The chain tensioner is manual and the chain lubrication is automatic. Equipped with an anti-vibration system for maximum comfort and reduced arm vibrations. The quick chain stop and the hand guard with a device to block the chain in case of kickback ensure safe use. Sold with a hard cover to protect the blade. Powered by a 4% mixture. Professional performance distinguishes the products of the PRO line, designed to meet the needs of professionals or DIY enthusiasts.
