DESCRIPTION

Valex Easy 26 pruning chainsaw with a 25.4 cc 2-stroke catalyzed engine. Equipped with a 30 cm bar, this chainsaw features an electronic ignition device and a throttle with a safety device. The fuel pump and chain tensioner are manual; the chain lubrication is automatic. Equipped with an anti-vibration system for maximum comfort and reduced arm vibrations. The quick chain stop and hand guard with a device to block the chain in case of kickback ensure safe use. Sold with a hard cover to protect the blade. Powered by a 4% fuel mixture. Simplicity of use and reliability distinguish the products of the FAMILY line, designed to meet the needs of DIY enthusiasts and the whole family.
